WHMIS 2015 Online

Online WHMIS Training With GHS

WHMIS 2015 Online™ offers four interactive, self-paced software programs that teach workers and supervisors the basic elements of the Canadian 'Workplace Hazardous Materials Information System' ('WHMIS') including 'Global Harmonization System (GHS) rules.

These WHMIS courses are intended to help you meet mandatory WHMIS awareness requirements. **WHMIS 2015 Orientation** is available in English or French (SIMDUT) through any modern HTML5 capable web browser. **WHMIS 2015 Refresher** is for persons previously WHMIS trained needing updating to the GHS system. **WHMIS for Office Workers** offers an abbreviated course for those not directly exposed to hazardous workplace products.

This educational software turns any computer into a WHMIS / GHS Education center. WHMIS 2015 online goes beyond the range of most programs by providing a built-in review of previous WHMIS 1988 rules.

Employees proceed at their own pace through highly graphical fully narrated lessons and a final quiz. **Quiz results** are automatically scored and stored for your reference. **WHMIS education** is available 365/24/7 and relieves you of the hassle of scheduling and delivering classroom training. **Training Management software** allows you to view training done, print certificates and reschedule employee training.

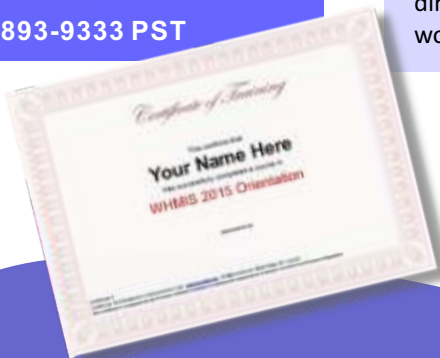

KnowledgeWare was the first company in Canada to produce computer-based WHMIS training. **Call us for a demo** preview or pricing or register online!
